

Love is just behind your door

Mib

Smiles always fake

Lab/Mib Mib

Tears never shed

Mib

Thoughts never said

Lab/Mib Mib

So much regret

Lab

Words never shared

Hidden away

Dom

Hugs always dreamed

Sib

Love never dared

He makes you breathe

He makes you laugh

He makes you fear

But he's your life

He's not away, he's not afar

He wants to stay, will you allow?

Chorus

Lab Mib/Sol

Love is just there behind your door

Lab Mib/Sol

Love is just there inside your walls

Lab Dom Mib/Sib

Breaking down the years of silence

Lab Mib/Sib Sib

Breaking through your safety distance

Lab Mib/Sol

Will you ever open the door?

Lab Mib/Sol

Will you ever open the gates?

Lab Dom Sib Fa/La

And let the raging river run through

Lab Mib

Show your love

Great like the sky

Behind the stars

Deep like the well

Of Living Water

Waiting for you

Waiting for me

To let him in

To let it out

To help you love

The Lord is there

It is his goal

It is his name

Love never dies

He died for you

He always gives

Because he lives

Chorus

Solb

Though you can fear the hurt, the pain

Lab-Sibm

Though it can bind you like a chain

Lab-Solb

Open your heart, so you can see

Lab Sib

That he's the one who makes you free

Chorus
